

Abortion

This is something that happened years ago and it seems I don't have a right not to reveal what the Lord said on the subject. Although there are conflicting opinions on abortion among Christians, our opinions really mean nothing. It is important to note what God has said about it in our day.

I am attempting to write this in a non-critical way because when I was in heaven I saw Jesus, who has no condemnation in Him, and I see the same absence of condemnation in what He said concerning abortion. What He said can be staggering (absolute truth) so I want to point out the lack of condemnation in His words.

The Lord is full of forgiveness and we know there are things that can happen in families and to women in particular that are beyond control. I remember in the beginning of my experience the Holy Spirit saying, **"The Lord your God is not a critical God, but a God of absolute truth."**

So with these things in mind here is part of the picture needed for the Lord's message to be understood. A woman (with husband's agreement) was given a DNC very early in a pregnancy because it was determined the pregnancy might endanger her life. Later in life the woman made an inquiry of the Lord. Here is what the Lord said to her, **"What about the soul that never saw the light?"**
