12-6-2017 KINGDOM GOVERNMENT MEETING

The Lord changed this meeting to something we had not experienced before. Pure silence only lacked a few of minutes of being an hour long and MM was being shown a picture of what “unified silence” produces for the Lord. She was not allowed to write and was to give the report from memory. We never left the Outer Court.

Let the Lord build a picture for you of what pure “Unified Silence” allows Him to do in the 4th dimension. (The following words were taken from MM’s taped report.)

Continued next page!

OUTER COURT: Silence.

MM - I will relay this as well as I can. HE's been showing me it deals with the silence and the vastness and the unity of silence. I'll try to relate some of the terms that HE used along with the things I saw.

The unity of silence is something that HE finished off with and what has happened here tonight with our unified silence is most significant. The first thing I saw and HE said was, "walls of silence." He said it many, many, many times and HE kept coming back to that. HE would show me other things and HE would come back to the walls of silence. The walls were being built.

At first I saw like blocks. They were blocks but they were not the color of cement. I don't know how to describe the color of it. It almost had a beige-pink look to it. At one point HE used the term beyond mortar, that they were being built beyond mortar.

After a while, at one point anyway, I saw steel cords. There were steel cords that were running through the blocks the walls were being built with and HE said, "flexible, yet not." The enemy would not be able to bend those with everything he had, he couldn't bend those. Those ran through the blocks. Like I said, HE would come back to the walls and at first I saw the blocks. I saw when the wall was about so high, when HE was about to here (showed a distance up). But the more our silence went the more it was built. Somewhere along the line (of ...) & it was so high. HE said that the wall was so high and I couldn't see the top that was above me. The parts that I did see were so small, you know. I have no idea how high it went but it was beyond what the enemy could do anything to.

HE talked about the vastness early on and that what I was seeing was just a portion of it. That HE was getting us ready for that vastness. We couldn't just walk into the wholeness of it and be able to withstand it. It's an introduction.

Something else that I saw, probably somewhere mid-way, it was a person and they were seated. At first it reminded me of a male but yet it was humongous, I mean it had a humongous stomach, you know belly. HE was using the term great birthing, bursting birthing. HE kept coming back to it ever so often. At first HE called it birthing then after that it was great birthing. Then the last HE came back HE referred to it as a massive great birthing.

At one point HE said, "listeners of My truths" and I knew HE was referring to us. Listeners of My truths HE repeated, I don't know how many times. Listeners of MY truths, listeners of MY truths give ME your ears.

One thing HE showed me early on was it looked a lot like ashes, but it was residue of something we destroyed of the enemy. I didn't catch it at first and HE came back to it again and I did catch it that time, but it was the left hand and arm just going out like swinging out to get rid of it and that was us doing it. The things that are destroyed and just burnt up that we need to be aware of. We have to get rid of them. HE's talked different times about residue, I know HE has and so this is one thing we need to do and its with the left hand, swiping with the arm. I don't know why it was the left arm.

I saw so many times the wall, the wall, the wall. At one time HE said, "the wall of MY city, the wall of MY city." And HE talked over and over and over, I don't know how many times about the unity of our silence. Another term HE used was the magnitude of what was being accomplished because of the unity of the silence. That it was of great magnitude. But this was a *silence we never had before* and because of the unity of it, all of us at the same time, HE was able to accomplish.

Oh and HE referred to the freedom that we gave HIM to work in the vastness because of our united silence. HE kept showing me this portion of the vastness and it was a preparation. HE said it was preparation for us. We're going through a preparation to be able to withstand more of that vastness. And there's times I saw light.

I was concerned after a bit about being able to remember and HE told me not to be concerned about it, it will come forth as it was needed. But HE kept coming back to the walls encompassing HIS city. It's really neat to realize that **the wall was being built tonight during our united silence**. It was huge. It went so high up and beyond any vision that I had. When we look up in the sky we can see a long way up. When we're up in a plane we know it's no small depth (that we're up to). It was so far beyond that.

You need to know that everybody had major parts in getting those blocks built, building that wall. This is just a side line, I knew I was holding this pen but it wasn't very long I could not tell I was holding it but it was in my hand. I could not feel it. At first I was struggling and thinking will I remember it to write it and HE told me, "Don't think about writing that." I wasn't going to be writing it. It let HIM have the freedom. HE used that word and that we were giving HIM freedom, true freedom to work.

More Understanding of portrayals

The reason the Lord said, "Thank you" was because I had completed a portrayal.
