A demonstration of God that our confession of faith goes to another person or it does not work!

Years ago we started taking declarations or confessions of faith on the Take His Heart site. We took them using “yes” and “no” answers which were saved on the server. The confessions would collect thru the month.

Beginning of month C C C C C C C C C C C C C C C C C

At the end of the month I would go into the site for the number of declarations for the month.

Then as a group we would acknowledge the declarations.

Then one day the Lord asked me, "What about the people who died before the end of the month?"

Then we changed the site so it sends out confessions to our mail boxes every twelve hours. We then acknowledge the declarations of faith that have come in when we open our e-mail.

*I knew the Lord meant: and their declarations of faith had not been received by another person yet!*

(This picture is true for both spoken and written declarations of faith!)
